Speedy Flatbed CO2 Lasers

Looking to boost quality or efficiency? With Trotec's Speedy flatbed CO2 lasers, you can increase both at the same time. With processing speeds up to

140 inches/sec., Speedy lasers are the fastest on the market. Ceramic CO2 laser tubes have faster rise and fall times allowing you to create high-quality personalized engravings while maintaining high-speed processing. Also available with a dual-source laser, the Speedy's broad system capabilities allow you to expand product lines and grow business.
